In the published article, there was an error in the **Generative AI statement**. The statement was incorrectly written as "The author(s) declare that no Generative AI was used in the creation of this manuscript." The corrected statement is:

"Generative AI (ChatGPT) was used in the preparation of the original manuscript solely to assist with reformatting bibliographic references to Frontiers style. This use was limited to citation formatting, specifically the DOI fields, and did not involve content generation, analysis, or manuscript drafting. Errors introduced in DOI fields during this process have been corrected."

There were several errors in the **References**:
