Correction for 'Pressure- and temperature-driven local structural stability and 5f/d hybridization in a metastable U–5.28 wt% Nb alloy' by Rongqiang Yao *et al.*, *RSC Adv.*, 2026, https://doi.org/10.1039/d6ra06126e.

The authors regret that incorrect references were identified in this paper following self-inspection of the reference list post-publication. Bibliographic metadata errors were found for ref. 29–31. The correct references are given below as ref. 1–3. The in-text superscript citation markers remain unmodified. This correction does not change any results or conclusions of the original article.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
